First Steps

What are my first steps with Smart?

- You are interested in Smart?

You are interested in Smart?

1. Visit the infosession

You can find the infosession on our **Website** . You can register yourself by clicking on "Register". If the info session is online, you will receive a link by e-mail. If the info session is on site in our office, you will only receive a confirmation of your registration.

2. Initial consultation

If you attended the info session, you can arrange an initial consultation with one of our counsellors. You can find the contact details on our **website** or in the **user guide**.

3. In a hurry?

If the next info session is too far away and you need counselling urgently, you can contact our team and describe your situation in an email or on the phone. The Smart counsellors will then make you a suggestion on how to proceed. It is still advisable to attend a follow-up infosession to gain a better understanding of how Smart works. **Contact us**
